The Teo Solution

Teo's Mission Critical Unified Communications (UC) suite enables organizations from small businesses to enterprise to communicate with greater ease; improving relationships and helping them achieve greater operational efficiencies, so they can accomplish more in less time.

Market Fit

- *Best in class UC suite for the mid-market (50 - 2000 users)*
- *Integrated Mission Critical UC and Voice Solution*
- *Customizable Solutions to fit customer needs*
- *Flexible deployments to deliver at the customer's discretion*
- *Extraordinarily scalable*
- *Variety of deployment and service options*

Price & Financing

- *Minimal Upfront Investment for both partners and customers*
- *Cost effective options for both cloud and premises*
- *Simplified licensing to avoid confusion*

From Our Partners

"Teo Technologies not only provides great products and solutions, but what sold our company on partnering was the level of sales and technical support they provide."

Eric Marcus / Marcus Networking Inc.

Customer Testimony

"...They were cost-effective and a price performer with value-add. I would recommend and have recommended Teo UCC to other companies and associates."

Scott Craig / AltaSource Group
